

MAMUN CO-FOUNDR

Terms & Conditions

University Platform Edition

Effective Date: June 15, 2026 | Last Revised: June 15, 2026

Version 1.0

1. Acceptance of These Terms

By creating a profile or otherwise using the Mamun Co-Foundr platform ("Mamun," "the platform," "the Service"), you agree to these Terms. If you do not agree, do not use the Service. Your use of the Service is also subject to our Privacy Policy, which is incorporated by reference.

2. Eligibility

- You must be **at least 18 years old** to create an account.
- You must be a **currently enrolled student** at a university that partners with Mamun, and you access the Service through that university-sponsored program.
- The Service is not directed to, and does not knowingly serve, anyone under 17.
- This edition of the Terms applies to **university-sponsored student users**. Direct-to-consumer users who register independently outside a university program are governed by a separate consumer agreement.

3. The Service and How Matching Works

Mamun helps student entrepreneurs discover mission-aligned co-founders within their university cohort. To avoid the most common misunderstanding about the Service:

- Match recommendations are **generated algorithmically** based on the values, skills, interests, and work-style indicators you provide.
- Recommendations are **advisory only**. They are suggestions, not decisions. **No match produces a binding or legally significant outcome**. A connection only forms when **both** students affirmatively accept it (bilateral consent).
- Mamun does **not guarantee** that you will receive a match, that any match will be suitable, or that any co-founder relationship will succeed.
- You may opt out of algorithmic matching at any time by deactivating your profile, and you may request a plain-language explanation of why a specific match was recommended.

4. Your Account and Information Accuracy

- All profile information is **self-reported by you**. You agree to provide accurate information and to keep it current.
- You are responsible for activity that occurs under your account and for maintaining the confidentiality of your login credentials.
- Mamun does not pull data from university systems and does not collect academic records (grades, GPA, transcripts, disciplinary, financial aid, or immigration status). See the Privacy Policy for details.

5. Consent, Withdrawal, and Deletion — Three Different Things

This is the distinction users most often get wrong, so we state it plainly:

Action	What it means
Giving consent	You actively agree, during onboarding, to the collection and use of your profile data for co-founder matching. No data is collected before you do this.
Withdrawing consent	We immediately stop processing your data for matching and deactivate your profile. This is not the same as deletion — compliance and consent records are retained as required by law.
Requesting deletion	We delete your profile, match history, and connection records within 30 days (limited legal and consent records excepted).

You can do these separately or together. Withdrawing consent alone does **not** delete your data; deletion requires a separate request.

6. Acceptable Use and Conduct

You agree that you will **not**:

- Harass, threaten, defraud, or impersonate any other user.
- Screenshot, redistribute, scrape, or publish another student's profile data, messages, or contact information without that student's consent.
- Attempt unauthorized access to the platform, other accounts, or our systems.
- Use the Service for any purpose other than good-faith co-founder discovery, or in any way that violates your university's policies or applicable law.

Violations may result in suspension or termination of your account under Section 8.

7. Co-Founder Connections and Off-Platform Activity

Co-founder matching is, by nature, an introduction service. Please understand the boundaries of our role:

- Once two students accept a connection, they may exchange contact information and continue the relationship off-platform. At that point you are **independent parties** interacting voluntarily.
- Mamun does **not** vet, background-check, verify, endorse, or guarantee any user, nor the truthfulness of any information a user provides.
- **Mamun is not responsible or liable for any activity conducted outside the platform.** This includes any in-person meeting, off-platform communication, agreement, partnership, venture, financial arrangement, or any resulting loss, dispute, or harm — whether between users or between a user and any third party. Once you connect or interact off-platform, you do so entirely at your own risk.
- You are solely responsible for your own due diligence and for any decision to meet, partner with, or do business with another user.
- Mamun is not responsible for how another user treats information you share with them after a connection is made, and cannot compel the return or deletion of data already in another party's possession. You may report misuse to us and we will investigate.

8. Account Termination

By you

You may terminate your account at any time through your profile settings or by emailing us. The consent-withdrawal and deletion process in Section 5 then applies.

By Mamun (for cause)

We may terminate an account for material violation of these Terms (e.g., harassment, fraud, impersonation, attempted unauthorized access). In that case you receive written notice with the reason and a 14-day appeal window; the account is suspended pending appeal; and following final termination, data is deleted within 30 days except records required for fraud prevention, legal compliance, or pending investigations. **We do not terminate accounts based on a user's values, beliefs, or protected characteristics.**

If your university's partnership ends

Your profile is frozen and removed from active cohorts. You'll be notified within 7 days and offered the option to export your data or request deletion — whether your account is ending because a university partnership has concluded or through your own personal request. Data is retained for 90 days to let you choose, then deleted unless you've elected an alternative.

9. Intellectual Property and Content

- You retain ownership of the profile content you submit. By submitting it, you grant Mamun a limited license to host, display, and process that content solely to operate the matching Service.
- The Mamun platform, software, branding, and matching system are the property of Mamun Co-Foundr and may not be copied, reverse-engineered, or reused without permission.

10. Disclaimers

The Service is provided "as is" and "as available." To the maximum extent permitted by law, Mamun disclaims warranties of any kind regarding the Service, including any warranty that the Service will be uninterrupted, error-free, or that any match or connection will meet your expectations. Mamun makes no representation about the identity, conduct, or suitability of any user.

11. Limitation of Liability and Force Majeure

- **Off-platform activity:** As stated in Section 7, Mamun is not liable for any activity, conduct, agreement, or harm occurring outside the platform.
- **Force majeure:** Mamun is not liable for failure or delay caused by circumstances beyond its reasonable control (natural disasters, war, government action, infrastructure or subprocessor outages, pandemics, etc.). We will give notice, mitigate, and resume normal operations as soon as practicable.
- **Limitation:** To the maximum extent permitted by law — and except for breaches of FERPA, COPPA, or other statutory obligations — Mamun's liability for any claim under these Terms is limited to direct damages and excludes indirect, consequential, incidental, special, or punitive damages.
- **No waiver of statutory rights:** Nothing here limits your statutory rights under FERPA, COPPA, CCPA, TDPSA, VCDPA, or other applicable law.

12. Changes to These Terms

We may update these Terms. **Material changes** — those that meaningfully alter your rights or obligations — require at least 30 days' advance notice and your active re-consent before continued use. Continued use alone does not constitute acceptance of a material change. Non-material changes (clarifications, formatting, contact updates) take effect on posting with an updated revision date.

13. Dispute Resolution

- **Direct contact** — Email mamun@mamuncofoundr.com. We acknowledge within 3 business days and respond substantively within 15 business days.
 - **University escalation** — If unresolved, contact your university's designated FERPA compliance officer, who may intervene under the DUA.
-

— **Regulatory** — You retain the right to file a FERPA complaint with the U.S. Department of Education's Student Privacy Policy Office, or a state complaint (CPPA for California residents; Texas Attorney General for Texas residents), as applicable.

14. Governing Law and Jurisdiction

These Terms are governed by the laws of the State of Texas, without regard to conflict-of-law provisions, and subject to applicable federal law including FERPA, COPPA, and CCPA. Any legal action shall be brought exclusively in the state or federal courts located in Travis County, Texas, and both parties consent to personal jurisdiction there. Nothing in this section limits your right to file a complaint with the regulators named in Section 13.

15. Key Definitions

Term	Definition
Service / Platform	The Mamun Co-Foundr co-founder matching platform.
Cohort	A defined group of students in a specific university-sponsored matching round, typically aligned to an academic semester.
Connection	A mutual match accepted by both students.
Data Use Agreement (DUA)	The written agreement between Mamun and a university partner governing data flows, retention, security, and incident response. In a conflict between these Terms and a signed DUA, the DUA controls the university relationship.
Material Change	A change that meaningfully alters how the Service or your data is governed; requires re-consent under Section 12.

16. Contact

For any question about these Terms, you can get in touch with us by emailing us at mamun@mamuncofoundr.com.
